

Suit That

Robin Packalen

Let me take you from New York to Puerto Rico
Breakfast in LA and go to bed in Rio
Italian, Spanish, girl, you choose, whatever lingo
Show you how to live one hundred straight from zero
You don't need superman from now on I'm your hero
No one can compare the shit that, baby, we do

Said I must admit I've been lookin' for your attention
I don't know how, but girl, you got me caught up
Let's get away you make me feel this kind of tension
Can't get enough, ooh

Your body, girl, I suit that tonight
So good that I could sue that, mhm
And maybe we should loop that for life
On and on, on and on, so divine
Said I must admit I've been lookin' for your attention
I don't know how, but girl, you got me caught up
And I don't wanna lose that, nah
Your body, girl, I suit that, mhm

The way you movin', baby, it should be illegal
Yoko ono fuck me up like I'm The Beatles
Focus on me, forget 'bout 'em other people

Said I must admit I've been lookin' for your attention
I don't know how, but girl, you got me caught up
Let's get away you make me feel this kind of tension
Can't get enough, ooh

Your body, girl, I suit that tonight
So good that I could sue that, mhm
And maybe we should loop that for life
On and on, on and on, so divine
Said I must admit I've been lookin' for your attention
I don't know how, but girl, you got me caught up
And I don't wanna lose that, nah
Your body, girl, I suit that, mhm

Am I trippin', is it mutual?
'Cause it's somethin' so unusual
Yeah, you're different than 'em others, baby
Significant other, not a number, baby
How you dressed up in that Saint Laurent
Stop the talkin', please, don't say no more
I'm speaking literally, you look stunning, baby
Wow

Your body, girl, I suit that tonight
So good that I could sue that, mhm
And maybe we should loop that for life
On and on, on and on, so divine
Said I must admit I've been lookin' for your attention
I don't know how, but girl, you got me caught up
And I don't wanna lose that, nah (I don't wanna lose that)
Your body, girl, I suit that, mhm (Ooh yeah, yeah)

Ooh yeah, yeah
Ooh yeah, yeah
Ooh yeah, yeah
