Robin Schulz

Got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light

In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning (In the morning)  
(Yeah)

Got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning  
In the morning (In the morning)  
In the morning (In the morning)

I feel it in my head now  
I feel it in my head now  
I feel it in my head now  
I feel it in my head now (In my head now)

Got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right  
I just want to have fun 'til the morning light  
In the morning light you got to live your life right
