

Only Way Is Up

Robin Schulz

I'm fallin' from great heights
But I can see from here
I'm above bird's-eye (Oh-oh)
So far is near

Meet me on the other side
Is it greener on the other side?
I've been waitin' my whole life
I wanna know, I wanna go
Take my hand and take me there

Only way is up, not coming down
Take me to the top, feet off the ground
I just wanna be right here, right now
Only way is up
I'm getting ready, let's go

Only way is up, not coming down
Take me to the top, feet off the ground
I just wanna be right here, right now
Only way is up
I'm getting ready, let's go

Run fast, don't wanna go slow
The city pretty from the glow
I feel it lightin' up my soul

Meet me on the other side
Is it greener on the other side?
I've been waitin' my whole life
I wanna know, I wanna go
Take my hand and take me there

Only way is up, not coming down
Take me to the top, feet off the ground
I just wanna be right here, right now
Only way is up
I'm getting ready, let's go

Only way is up, not coming down
Take me to the top, feet off the ground
I just wanna be right here, right now
Only way is up, only way is up
Only way is up, not coming down
Take me to the top, feet off the ground
I just wanna be right here, right now
Only way is up, only way is up
