

Oxygen

Robin Schulz

Passion makes me paranoid
Jealousy can make you blind
Lookin' hard for something wrong
Where trouble searches trouble finds

I need you like oxygen
Tired to me breathe you in
Prove it to me once again

Show me you love me
You know I get scared
I'm not just broken
I'm beyond repair
Tell me you need me
You know I get scared
Make me forget that
I'm beyond repair
Oh, oh

Everything is triggering
Dealing with a damaged mind
Something 'bout your fingertips can calm me down
When you're around the lines

I, I, I need you like oxygen
Tired to me breathe you in
Prove it to me once again

Show me you love me
You know I get scared
I'm not just broken
I'm beyond repair
Tell me you need me
You know I get scared
Make me forget that
I'm beyond repair

Please love, love
Please love, care
Please love, love
Please love (Please love)
Please love, love
Please love care
Please love, love
Oh, oh

Never, never, never, ever stop
'Cause I will never, never, ever get enough
Show me you love me
Enough, enough, enough
I'm in pieces, I'm in pieces
Can you see it?
I'm in pieces, I'm in pieces
Darling, please stress

Show me you love me
You know I get scared

I'm not just broken
I'm beyond repair
Tell me you need me
You know I get scared
Make me forget that
I'm beyond repair

Please love, love
Please love, care
Please love, love
Please love (Please love)
Please love, love
Please love care
Please love, love
Oh, oh

Never, never, never, ever stop
'Cause I will never, never, ever get enough
Show me you love me
Enough, enough, enough
And love, and love, and love
Enough
