

Hotel

Robin Thicke

This much heat ain't safe
We should go right away
Body chemistry
With all these clothes in the way

We could throw a little party-o
Baby do a little cardio, uh huh
Tell your best friend adios
And meet me in the lobby-o
I'll be waiting
Might not be love but we'll make it
Make it all night

We don't gotta get married
Let's take it to the hotel
I'm thinking that we could do what lovers do
Oh so well

Ain't gotta get married
Let's take it to the hotel
Baby let's take the honeymoon
Leave the wedding bells

We gon' celebrate
You and me, pink champagne
Give me all of your faith
You can keep your last name

We could throw a little party-o
Baby do a little cardio, uh huh
Tell your best friend adios
And meet me in the lobby-o
I'll be waiting
Might not be love but we'll make it
Make it all night

We don't gotta get married
Let's take it to the hotel
I'm thinking that we could do what lovers do
Oh so well

Ain't gotta get married
Let's take it to the hotel
Baby let's take the honeymoon
And leave the wedding bells

We don't gotta get married
Let's take it to the hotel
I'm thinking that we could do what lovers do
Oh so well

Ain't gotta get married
Let's take it to the hotel
Baby let's take the honeymoon
And leave the wedding bells
