

Jus Right

Robin Thicke

It's just right, it's just right
A millions words never say
The way I truly feel about
The one I just cant live without.

'Cause it's like that, it's like that
The way you move the way you dance.
The way I know the moment when
You need my love, you need my hand

And all I want to do is see you
All I want to do is please you
I'm hypnotized by everything you do
I hope I'm just right for you

And baby I know you're the only one for me.
And its right there on your lips.
And its right there in your kiss.
And baby I know, you're the only air I breathe.
And and its right there on your lips.
And its right there in your kiss.

Just right....

I take you here, I take you there.
I take your body anywhere.
Baby I work so hard for you,
To make your fantasy come true.
'Cause it's like that, it's like that.
I got your front, I got your back.
We'll take it slow, we'll make it last.
'Cause it's like that, it's like that.

A little bit sweet, a little bit spice.
A little bit naughty, a little bit nice.
Tell me baby that you need me too.
That I'm just right for you.

And baby I know you're the only one for me.
And its right there on your lips.
And its right there in your kiss.
And baby I know, you're the only air I breathe.
And and its right there on your lips.
And its right there in your kiss.

Just right....

It's like that, it's like that
Just right.....
