

# Something Else

Robin Thicke

I want something else [x2]

I'm a man  
I love my drink  
I like the girls  
I've walked these streets  
But I need a break, some new town  
Cause the way it tastes  
It is going down (I say)

[Chorus:]

I want something else  
I love the stuff  
It's never enough  
I want something else  
You know what I need  
Just give it to me please

Losing control, I'm about to explode tonight

I got a girl  
She's tired of this city  
She wants to go where  
She feels pretty (yes)  
She wants a new mind  
Sexy all the time  
In the middle of the dinner  
She whispers in my ear (says)

[Chorus:]

I want something else  
I love the stuff  
It's never enough  
I want something else  
You know what I need  
Just give it to me please

I'm losing control, I'm about to explode tonight

I need to know [x8]

It's never enough [x8]

[Chorus: x2]

I want something else  
I love the stuff  
It's never enough  
I want something else  
You know what I need  
Just give it to me please

I'm losing control, I'm about to explode tonight
