

# That's What Love Can Do

Robin Thicke

Turn a boy into a good man  
Make a queen feel like a princess  
One kiss at the perfect moment  
Booze is start to heal

That's what love can do  
It's not what love will do  
That's what love can do  
Ooh I tell you what you do to me  
Everyday I've felt  
Something else that makes me believe  
'Cause that's what love can do  
Baby that's what love can do everyday

You are now the most important  
You and I have built this fortress  
One night we could make it alright  
There's no need to run, ooh

That's what love can do  
It's not what love will do  
That's what love can do  
I tell you what you do to me  
Something else that makes me believe  
'Cause that's what love can do  
Baby that's what love can do everyday

When the mornin' comes, I see your eyes  
And feel the sun, and I know I'm right where i belong ?  
And you may not know until you grow  
Who you are or what you know  
Not everybody finds a love like I have, ooh

That's what love can do  
That's what love can do  
That's what love can do  
Ooh, I tell you what you do to me  
Everyday I find something else that make me believe  
'Cause that's what love can do  
Baby that's what love can do everyday, yeah
