

Are We Just People

Robin Trower

Tell me are we just people?
Or should we reach for something more
Is living just for living?
The way it is I'm not so sure

Every day is another question
To things we can't control
I still romance with the future
But wishing won't make it so

Are we just people?
Or is there really something more to be found?

Should we just keep pushing
I'm thinking I should take some time
No I'm not messing lord
You know I'm waiting for the sign

Angels we believe in
Like legends to behold
Golden days forever
But wishing won't make it so

Are we just people?
Or is there really something more to be found?

Everyday we ask the question
Lost in love with the future
But your wishing won't make it so

Are we just people?
Or is there really something more to be found?

Are we just people?
