

# Burn

Robin Trower

It's that same thing  
Happens time after time  
It's that same old thing  
I cool it down, you start a fire

You don't need to burn  
Burn the whole place down

It's a brave thing  
To be out there on your own  
It's a real brave thing  
'Cause once it goes, once it goes, it's gone

You don't need to burn  
Burn the whole place down  
I tried reaching out to you  
I'm reaching out to you

It's a sad thing  
When the heart don't rule the mind  
It's a sure fire thing  
When you look how many faults you find

You don't need to burn  
Burn the whole place down

I tried reaching out to you  
I'm reaching out to you
