

## Don't Ever Change

Robin Trower

Mountains and valleys  
Oceans and streams  
Between hard and easy  
A lot of extremes  
And you bring your love with a fire  
Don't ever change

A little patch of blue  
Their many shades of grey  
When just the center view  
Can justify the day  
And you bring your love with a fire  
Don't ever change

The place that we have found  
Outside of time  
This is the only now  
We alone decide  
'Cause you bring your love with a fire  
Don't ever change

Bring your love with a fire  
Don't ever change
