

## On Your Own

Robin Trower

Face be brave despite.  
Body will survive all right.  
You've never known.  
On your own.

Breathing carry on.  
Set a pace to focus on.  
Lead in your lungs  
On your own.

Live a life that's long.  
Seek companions.  
You dependence has to learn.  
Just has to learn.

Hands now hold yourself

Tightly 'til that someone else  
Touches your soul.  
Leads you home.

Now's the time to start.  
Searching through the lonely parts.  
They're not suffering like you.  
Not like you do.

When this aching ends.  
All become a team again.  
Confidence flows.  
On your own.
