

One Go Round

Robin Trower

Slide into the dark or step into the light
Decision needs some juice now to bind it all up tight
With each excuse you slow down, slow it to a crawl
The next ride you go on could bring it all

There's only one go round
You only get one go round

Time to choose a life and bend it to your will
Hold on with all your might
It could fail you still
Divide the things you found out into right and wrong
Show you can't be drowned out
Every thought a glowing sun

There's only one go round
You only get one go round

Slide into the dark or step into the light

There's only one go round
You only get one go round
