

Step Into the Sun

Robin Trower

(As I knew it, kissing you was
As I knew it, kissing you was
The end of my life, the end of my life)

You caught my mind, my travelling mind in a city way up north
You caught my heart when I came back
And hoped to see your face again
'Cause in your eyes I see something I've never seen before
So what do you say?
Let's go all the way

Come on dance into the sun
Come on dance into the sunshine
Come on dance into the sunshine with me

The way we talk on the phone
The way you write your words
To me and say that it's alright
"Don't you worry boy
It's you I want, so don't you lose your grip"

Do what you say, I say let's go all the way today
Come on dance into the sun
Come on dance into the sunshine
Come on dance into the sunshine with me

Come on come on dance
Come on come on dance
Come on dance into the sun
Come on dance into the sunshine with me
Come on dance into the sunshine with me

As I knew it, kissing you was
As I knew it
Come on dance into the sunshine with me
Kissing you was
The end of my life
The end of my life
As I knew it
Come on dance into the sunshine with me
