

# Time Stood Still

Robin Trower

I was there with you  
In a special place  
The two of us alone  
In that precious space

As we held each other close  
Time stood still

Everything was clear  
Our minds tied as one  
The future's always here  
Lifted by the sun

As we held each other close  
Time stood still

Feeling safe and warm  
By that gentle flame  
Such sweetness will belong  
To who has the greatest claim

As we held each other close  
Time stood still
