

Where Our Love Came From

Robin Trower

I'm dedicated loving you
There's nothing that I wouldn't do
Still need to find the right words to say
Oh Baby

If I should ever lose your love
And I had never given enough
Never gave enough of me

Can we find a way ooh
Find that special place where our love came from
Came from
Came from

Take me back to tomorrow
We planted seeds so let them grow
Just treasure what we have and let it grow

Can we find a way ooh
Find that special place where our love came from
Came from
Came from
