

Brooklyn '95

Robotaki

Can we stay in bed for two minutes longer? (Yeah)
Wi-Fi's weak, gin is stronger (Ooh-oooh, ooh)
Take the day off, get higher than the vent
Some mistake I'd make again

It don't matter anymore
Cause all I have is now
I know I'll get through the day (Yeah)
Girls, don't ask me how
Take me back to simpler times
Love me like 1995
They don't know about us
When we get tough (They oh-oh)
Take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough

Let me be a ghost boy
Read me like some Tolstoy
Put up in a cab ride
Spinning on a Tallboy
I'm just, I'm just Michael from the block (Yeah, yeah)
Take me to the cookout, one dollar a shot
Somebody yelling "worldstar", everybody stop
DJ with the beeswax, everybody drop
You send on drake, take requests and less than
Nothing to make an intervention
Polaroid pictures, Varomention
Requesting another floppy by Preston
I'ma be the weekend, this is me
I'm a John Lennon girl, just let it be

It don't matter anymore
Cause all I have is now
I know I'll get through the day (Hey)
Girls don't ask me how (It's 1995)
Take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough
Take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough

You know we just missed my stop
Maybe we could take a walk
Just call, we could people barge
Roof top trucks, I know a spot

It don't matter anymore
Cause all I have is now
I know I'll get through the day (Yeah)
Girls, don't ask me how
Take me back to simpler times (Time)
Love me like 1995

They don't know about us
When the going gets tough (Gets tough, gets tough, gets tough)

Take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough
Take me, take me, take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough

Take me back to simpler times
Love me like 1995
They don't know about us
When the going gets tough
