Robotaki

First impressions  
Second tries  
Never trusted destiny

The other side  
Seems so nice  
Here is not the place to be

No one knows  
What it's like  
I dare you  
To come with me

Might be awful  
Not so bad  
When you're in good company

Your fingertips are made of gold  
They dig into my collarbones  
Your eyes turn to kaleidoscope  
I'll make you, ooh  
I need

Somebody to dream with  
I ain't talking bout no kind of sleeping  
I hope you will keep me like your secrets  
I need me somebody to  
Dream with  
Dream with

I'll be the light  
Trust me like your intuition  
If you like  
We can start a new religion

Ride or die  
Follow me into the darkness  
Close your eyes  
You know this world can be so heartless

Your fingertips are made of gold  
They dig into my collarbones  
Your eyes turn to kaleidoscope  
I'll make you, ooh  
I need

Somebody to dream with  
I ain't talking bout no kind of sleeping  
I hope you will keep me like your secrets  
I need me somebody to  
Dream with  
Dream with

(Oh, dream with) Dream with  
I ain't talking bout no kind of sleeping  
I hope you will keep me like your secrets  
I need me somebody to

Dream with  
I need

Somebody to dream with  
I ain't talking bout no kind of sleeping  
I hope you will keep me like your secrets  
I need me somebody to  
Dream with
