Monkey Bars

Robotaki

Can't believe I took you home
Made a wrong turn a few streets ago
Take a walk on my lazy bones
Finger prints in case you get lost

Sing my name loud
Love the way it sounds in your mouth
Draw the shades, shadows play
Sunset blues, the end of my day

Up to the sky, aim for the stars
Cling to one another like monkey bars
It's much too soon
Who got the keys to my air balloon?

Up to the sky, aim for the stars
Cling to one another like monkey bars
It's much too soon
Who got the keys to my air balloon?

Watch the sun fill my room
Like the home for the record groove
Summer nights always end too soon
Lying in bed to make up the truth

Sing my name loud
Love the way it sounds in your mouth
Draw the shades, shadows play
Sunset blues, the end of my day

Up to the sky, aim for the stars
Cling to one another like monkey bars
It's much too soon
Who got the keys to my air balloon?

Up to the sky, aim for the stars
Cling to one another like monkey bars
It's much too soon
Who got the keys to my air balloon?
