

# Hold Me Back

Robyn Ottolini

This man thinks he can hurt my friend  
With someone random on the weekend  
Hold me back, hold me back  
Hold my earrings, hold my drink  
I'ma tell this man what I think  
Hold me back, hold me back

It ain't crazy to be spitting facts if he's doing her wrong

I don't hold back when I'm drinking  
I don't hold back what I'm thinking  
Sure, that girls' intoxicating  
But it still ain't the girl he's dating  
With all these shots that I'm shooting  
All these thoughts that I'm concluding  
If this man doesn't wanna get a little ass whooping  
Hold me back, hold me back

She's been crying on the couch  
I can't even get her out  
He holds her back, holds her back  
For a ten, she sure as hell don't see  
A five like him don't know what she needs  
Holds her back, holds her back

It ain't crazy to be spitting facts if he's doing her wrong

I don't hold back when I'm drinking  
I don't hold back what I'm thinking  
Sure, that girls' intoxicating  
But it still ain't the girl he's dating  
With all these shots that I'm shooting  
All these thoughts that I'm concluding  
If this man doesn't wanna get a little ass whooping  
Hold me back, hold me back  
Hold me back, hold me back

There's a few things this new girl should know  
Before he tries to take her home  
He'll hold her back, he'll hold her back  
He don't even wanna know her  
He just only wants to hold her  
Hold her back, he'll hold her back

This ain't a threat, it's a promise  
I got no problem being honest  
Just like this gin is in my tonic  
You got your hand in her back pocket

And I don't hold back when I'm drinking  
I don't hold back what I'm thinking  
Sure, that girls' intoxicating  
But it still ain't the girl he's dating  
She is pretty pretty though, but  
I don't hold back when I'm drinking  
I don't hold back what I'm thinking  
I don't mean to be hating

But he ain't really on his best behaving  
With all these shots that I'm shooting  
All these thoughts that I'm concluding  
If this man doesn't wanna get a little ass whooping  
Hold me back, hold me back  
Hold me back, hold me back
