

## How Fast

Rocco DeLuca & The Burden

Pull yourself from the room  
Walk into the afternoon  
Did you think you'd be immune to machines and perfume

How fast can you run  
How fast can you run  
How fast can you run

Crawl into another cave  
All the things you tried to save  
On your arm it's engraved  
That the world's come apart

How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run

Put yourself in another place  
It's an illusion that we are safe  
You've got such a pretty face  
That the worlds come apart

How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run  
How fast can you run
