

Feels Like A Dream

Rocco

It feels just like a dream (just like a dream)
There's nothing to do just you and me (there's nothing to do just you
and me)
I usually trip over things like this (like this)
Just glad it's not a one-time kiss (not a one)
I put my heart on the line (I put my heart, oh, I put my heart)

You showed me how to love (how to love) with every single touch (sing
le touch)
Showed me everything (everything) I've never seen (I've never seen, o
h I've never seen)

It feels just like a dream (just like a dream)
And I don't want to wake up
I just want to stay here (I just want to stay) next to you (next to y
ou)
It's hard to believe (it's hard to believe)
That I found someone (I found someone) that loves just like I do

Don't wake me up
Oh, don't wake me up, baby
Don't wake me up
Oh, don't wake me up, baby
Don't wake me up
Oh, don't wake me up, baby
Don't wake me up
Oh, don't wake me up, baby

Pretty boys don't usually cry
But then I looked at you with a smile (with a smile)
Honestly, I thought you'd be far
You're closer than I thought, thought
We dance in the sunlight
Not a care in the world (not a care in the world)
Counting stars in the moonlight
Never felt this way about a girl

You showed me how to love (how to love) with every single touch
You showed me everything I've never seen (I've never seen oh, I've ne
ver seen)

It feels like a dream (like a dream)
And I don't want to wake up
I just want to stay here next to you (next to you)
It's hard to believe that I found someone that loves just like I do

Don't wake me up
Oh, don't wake me up, baby
Don't wake me up
Oh, don't wake me up, baby
Don't wake me up
Oh, don't wake me up, baby

Don't wake me up
Oh, don't wake me up, baby
