

## Here When I Wake Up

Rocco

Tell me, will I see you again?  
'Cause when the morning sun comes up  
I hate that we end  
Show me, how it feels  
In your arms I long for something real

I want to stay in yesterday, oh

The moment you leave me, baby  
You're all I could think of lately  
Why's it always you stuck in my head?  
Wondering why you don't stay a little longer, baby  
You're all I could dream of, baby  
Why's it only me hoping you'd be here when I wake up?

Holdin', onto you  
You're all that I see, the air that I breathe  
Do you, see me like I do?  
Is this a waste of time when I spend it with you?

I want to stay in yesterday, oh

The moment you leave me, baby  
You're all I could think of lately  
Why's it always you stuck in my head?  
Wondering why you don't stay a little longer, baby  
You're all I could dream of, baby  
Why's it only me hoping you'd be here when I wake up?
