

Love of my life  
Where have you been all this time?  
How long I've been waitin' for someone worth saving?  
It looks like you've taken my heart  
It's quite a surprise  
You're still here, right by my side  
If you take my hand  
It might be your chance  
I'll ask you to dance

Oh, 'cause I  
I L-O-V-E when you look at me  
I'll spend my time here by your side  
Falling in love with you (you)  
Love of my, love of my life  
I've been waiting all of this time, all this time  
I've been waiting for you  
The love of my life  
And out here you stand, you're right by my side

You didn't have to lift a finger for me  
Loving you was easier than you think  
What spells are you castin'?  
'Cause this feels like magic  
You take off my baggage  
This loves everlasting  
I see the love in your eyes  
You're more than one of a kind  
The stars, they envy you  
Oh, I'm glad to say that you're mine

I L-O-V-E when you look at me  
I'll spend my time here by your side  
Falling in love with you (you)  
Love of my-, love of my life  
I've been waiting all of this time, all this time  
I've been waiting for you  
The love of my life  
And out here you stand  
You're right by my side

Love of my life  
Where have you been all this time?
