

Only Boy

Rocco

I was running in place
Not sure where I was heading
Until I saw your face
Take me anywhere, I won't mind

As long as it's just you and me
And nobody else it's true
It's something I've never felt and I
Could be the one and only boy for you
Come close to me
I hope you like the company

Alright
You're pretty good at dancing
I can't say the same
Had a couple drinks
Got some confidence
You're like a gun to my hip, baby
And if you're doing nothing
Come on, let's do something

Just you and me
And nobody else it's true
It's something I've never felt and I
Could be the one and only boy for you
Come close to me
I hope you like the company
