I came back

```
I have waited for this day
To feel I'm fitting in
And I have longed to feel this way
To be alive again

I came back, back, back to life
I came back, back, back to life
```

I made plans to go away
And never to return
I did not think I'd feel this way
But this is what I've learned

I came back, back, back to life I came back, back, back to life I came back

And now there's time to think Of someone else besides myself And now there's time to think Of someone else

- I came back, I came back
 I came back, back, back to life
 I came back, I came back
 I came back, I came back
 I came back, I came back
- I came back, back, back to life I came back, back, back to life

I came back, I came back
