Keep Comin Back

Rock Mafia

Another day, another night, another way, it hit me like
I never met you but I known you my whole life

You're always on my mind, I put it in rewind
I wish I had it running on slo-mo
So I could replay the things I love the most

'Cause you keep coming back to me like a melody in my head
'Cause you keep coming back to me like a melody in my head
In my head
In my head, in my head, in my head
In my head

Ballin' hard, flyin' low, shine so bright, curve my glow
Just like an angel on a New Year's float

You're always on my mind, I put it in rewind
I wish I had it running on slo-mo
So I could replay the things I love the most

'Cause you keep coming back to me like a melody in my head
'Cause you keep coming back to me like a melody in my head
In my head
In my head, in my head, in my head
In my head
In my head, in my head, in my head

You got me waiting for the drop
Like a [?]

You keep coming back to me like a melody in my head
You keep coming back to me like a melody in my head
In my head
In my head, in my head, in my head
In my head

La-la-la-la-la-la-la-la-la-la-la, in my head
In my head, in my head, in my head
In my head, in my head, in my head
La-la-la-la-la
