

Come My Way

Rockapella

Come my way into the garden home and melt your butter
Everything forgiven, every bug is livin' love, come my way...

If you're lost I will find you with a vision knows your fear
And if you break I will bind you with my arms
If you hurt I will heal you
If you stray I will reel you in and drive away the demons did you harm

Come my way, I'll carry you in from the cold
Come my way, I promise I'll lead you back home

If you're down I'll convert you with a missionary zeal
And guard your heart with a mercenary cool
And if you're drained I will fill you up with my love until you know
The glory of an other-worldly fool

Come my way, I'm crushing you diamonds from coal
Come my way, I'm turning your tin dreams to gold
Come my way into the garden home and draw your butter
Everything forgiven, every dove is livin' love, come my way...

Gift o' the gab but the Bible warns o' the bad taste in my mouth
h o' talkin' in tongues
Blow to the head at the bar-room brawl gonna leave me peelin' myself right off the wall
Bow to the bobbin'-headed icon bleed my mind down my brain to a crawl

And if you come, I will dream you to imaginary high
And if you hope, you'll awake to find it real life
But if you run I will spurn you, if you turn love will burn you
And you'll never know the story of these arms

Come my way, I'm blooming you roses from weeds
Come my way, I'm grooming me up from the seeds
Come my way into the garden home and drink your butter
Everything forgiven, every lug is livin' love, come my way...
