

Make It A Slow Boogie

Rockapella

Won't you hold me close, little girl
One more time before you go
You know I've been good to you baby
You may be sorry one day
I won't beg for another chance
But why must you hurry so?
All I ask is for one more dance
Before I just let you slip away
Make it a slow slow boogie
With a steady, easy roll
Something groovable to rock away
The blues deep in my soul
I know you've been wounded before
And I know you're not to blame
But sometimes everyone has to lose
It's just a crazy part of the game
Make it a slow slow boogie
Make it last the whole night long
Let me dream that I won't wake up
Tomorrow to find you gone
Won't you close your eyes, little girl
If I she'd a tear or two
And though I might be losing you tonight
I don't know what I'm supposed to do, pretty baby
My slow boogie baby, my groovable, loseable
Mamamajamama, oh yeah, oh yeah
