

# Nowhere

Rockapella

Took me a ride 'round the city  
Thought I'd look around, see if I'd find another you  
Had to be a place wherein they do do what you do  
Where I could see what I needed to see yeah

Found me a shrine in the city  
Walked to mass swallowed some smoke and rang a bell  
Asked if there's a place wherein they do do what you do  
But he said Boy don't you know when you got what you had gotta  
grab it and never let go

Took another ride 'round the city  
Took about an hour, crooked old taxi picked me up  
Take me to a place wherein they do do what you do  
But he said Boy don't you know when you got what you had gotta  
grab it and never let go  
And he said...

Ooh, nowhere ain't never gonna find (ooh, nowhere)  
I hear the same thing all the time (ooh, nowhere)  
Boy you ain't even got a prayer  
You won't find that no way nowhere  
Nowhere

Boy, don't you know that you get what you get in the city?  
Nobody ever delivers the way that you want (a happy ending)  
Never, no never give up what you've got 'cause you think there'  
s something better  
Chances are there ain't nowhere... nowhere.

No more rides 'round the city  
No more nights trying to find another you  
Going to a place wherein they don't do what you did  
Where I could see what I need to be see

Going far away from the city  
Going to a place where I can view a better view  
Going to a place where I can get away from you  
But I know soon as I get where I'm going you'll get there and g  
et it and grab it and go  
And I know...

(Repeat twice)

Nowhere...
