

Smile in My Heart

Rockapella

Got a smile in my heart from you
Smile in my heart from you
Got a smile in my heart from you that never dies.

Got a light in my soul from you
Light in my soul that burns true blue
Got a light in my soul from you that never dies

So the bad's bearin down,
Bring it on, the answer I've found
Got my own secret weapon,
snatching the righteous from the wrong
Sunny days come and go
Monday waits to try my soul

There'll you'll be,
knocking down the dominos of woe I know

Chorus

No more dark days
Only summer always
No more dark days
Always summertime

When my faith cries at night
Only you summon the light
Sending sunrise through my nightmare
Simple answers in your smile

With the world closin in
I just close my eyes and grin
There you'll be
Rising like the phoenix 'bove the fray you fly

Chorus

Never wanna be all alone without you
Never wanna be without your smile
