

## Too Many Balls

Rocket from the Crypt

The cops showed up just the other day  
Just to turn it down  
There's nothing to do - nothing to say  
Too many balls just gettin in the way  
And they're not my friends and I blame them all  
And they're not my friends and I blame them all  
And they're all tough as nails  
And they're all hard as a rock  
And they're all tough as nails  
And they're all hard as a rock

There's too many balls all around this place  
Too many can-i-balls  
Brainwashed ammo high on rape  
So much cum that I never feel safe  
And they're not my friends and I blame them all  
And they're not my friends and I blame them all  
And they're all hard as a rock  
And they're all tough as nails  
And they're all hard as a rock  
And they're all tough as nails

Too many balls gonna kill us all (9x)

And we're all choking on nuts  
Too many balls gonna kill us all  
And we're all choking on nuts

Too many balls gonna kill us all (9x)
