

# Make It Last

Rockie Fresh

I'm only trusting the man above  
When you turn me down, you turn me up  
I got no problem with showing love  
I did shit for free but, they want a cut  
They been knowin' I'm the one, still they want to treat me like  
I'm runner-up  
Number One one stunner, can't stunt on us  
They hate but, they bitches still gonna fuck with us  
Please don't treat us like some amateurs  
We don't even post 90% what's caught on these cameras  
I stop saying "My Life A Movie" cause that made me a character  
From High School to the League  
I feel like KG out of Farragut  
I see the future but, not on some tarot shit  
Don't bet against me, save you some embarrassment  
You got one life, you really should cherish it  
Stop hating on people and get on yo money shit  
Get off the dummy shit, goofy shit  
Tryna make me think I'm losing it but  
When I ball, I wanna benefit

When I get extra with all the expenditures  
When I need money you not who I get from  
One winter, I spent about 10, 000 on Timberlands  
Clearly I was too booted up  
Your first 100k feel like a M until you go fuck up  
First they love us then they hate us, now they back tryna fuck  
with us  
Sleep when you available  
Then want to get in touch when ya out of touch  
I take my time with shit, I don't like to rush  
Take my time when a fuck bitch, just in case this shit my last

Gotta know the good girls from bad hoes  
Sometimes you gotta pass  
You ain't got no business in that hood but  
You feel good because you got a pass  
I was so lit when I was doing this shit, I had to tell you on t  
he track  
If you can't recognize this real shit, I might suggest you run  
it back

Staying sleep is easy, staying up takes work  
Imma smoke weed up, let's get higher  
Get paid more than once a month  
I been running everything up  
I been running everything up  
Now we up
