

# The Future

Rockie Fresh

[Hook:]

I've got dreams of rollin' 'round the city  
Screamin' out "money ain't a thing"  
But you know I gotta get it with my niggas  
It's better when your circles stay the same  
And they wonder how I'm feelin' right now  
They ask me how I'm feelin' right now  
Said I'm feelin' like a billion right now  
I'm feelin' like a billion right now

[Verse 1:]

Welcome to Electric Highway - I'm doin' things my way  
My life is an example of exactly how the grind pay  
Ice blue diamonds like bottles of that Bombay  
I came a long way to Rozay from that Andre  
Been out this world and I ain't never need Galaxy phones  
Niggas be Twitter-hatin' on me on Galaxy phones  
But them niggas need loans - I'm paid and livin' good  
Come and spend a day in these Jordan's, homie, I wish you could  
Drive a DeLorean, feelings of being born again  
The same you, it's just now, you got some more to spend  
More to give, improving the way your people live  
And the way your bitches shop, you work it, tell it "never stop"

[Hook]

[Verse 2:]

It's gettin' late but we still ridin'  
It's getting' dark but I'm still shinin'  
I came far but got so far to go  
While I'm travellin' down this long and this winding road  
Told these hoes like Usher told 'em: "you don't have to call"  
Aye homie, if you really want it, you can get it all  
But any time that a nigga get anything  
These hoes'll try to milk you, watch out for them Dairy Queens  
I used to rock that ice cream when I hit the scene  
Now it's white mountain nearin', other rappers I ain't hearin'  
I'd rather listen to Taylor Swift than most of you niggas  
And my lady prefer that I never smoke with you niggas  
Fuck y'all...

[Hook]

[Bridge:]

Goin' to the future  
We goin' to the future  
Just ride with me  
Don't be afraid to ride with me  
Ridin' on Electric Highway

[Hook]
