

They Don't Understand Why

Rockie Fresh

It's like you could have it all and niggas wouldn't get you
They've seen what you've become with no idea of what you've been through
A lot of people fake and it really becomes an issue
When you gone, they saying fuck you, when you on, they fucking with you
Man, I just don't understand but I do me, I can't do it any bigger
Getting pampered by these women while I'm shitting on these niggas
This is just what I would figure, this is just what I'd expect
Anytime you getting money, then you bound to get respect
But you gon' find a problem when you find success
The ones that used to hate you feel like they know you the best
Man, I wish I had known that it would come with all this stress
Would've smoked a little more, maybe cared a little less
But I'm already in it, I plan to be here long
These niggas say they got me but I know they'll do me wrong
They wanna knock me off to see me die, they always try but I will never fall.

And they don't understand why
See, I smoke weed just to ease my mind but they don't understand why
And I live good 'cause I'm on my grind but they don't understand why
I don't love these hoes so if they don't go then girl, you gotta say bye
And at the end I hope they see that I'm a be me when they don't understand why.

Okay, I gotta keep it real, I could really care less about how these other niggas feel
When it comes to my attire 'cause in my mind, I'm flier
I'm doing what I want so I'm gon' get what I desire
It's my life and really, I just gotta do what's best for me
Swimming in success and I don't want no one to rescue me
Ain't what you'd expect from me, I'm never on the same shit
But I'm always sticking with the people that I came with
Never be the nigga that complains about what he can't get
I work hard, believe it and eventually, I'll see it
And yup, I got it 'cause I need it, I can't wait to say I made it
When these people start listening and see that I'm their favorite
And truthfully, I am jaded, fuck that, I'm elated
I heard of niggas that hated but tell them Rockie sedated and I'm gone

These people wonder why I'm fly and I try to tell these niggas
but...
