

# Runaway

Rockwell

She's so serious  
She's looking for a better way  
Her Midwest town has got her down  
She's leaving home today  
She's so curious  
To find out what she's missed  
Small town girl in a big time world  
Soon she'll get her wish

She's a runaway  
Out there on her own  
She's a runaway  
Headin' for the danger zone

She's delirious  
It's like a movie on the silver screen  
Fancy cars and movie stars  
In 20-foot limousines  
Here comes the man without a shadow  
She'll never tell him that she's just 16  
To him, it really doesn't matter  
They're never as young as they seem

She's a runaway  
Out there on her own  
She's a young stray  
Livin' in the danger zone

It didn't take her long to figure out  
All of his promises were lies  
His only purpose was to use her up  
She couldn't get away if she tried

She's a runaway  
Out there on her own  
She's a runaway  
Livin' in the danger zone  
She's a runaway  
Out there on her own  
She's a runaway  
Livin' in the danger zone

She gave her innocence  
For what she thought was love  
But what she got was much too hot  
He's strung her out on drugs  
She's got nowhere to turn  
The dream becomes a nightmare  
All alone, starts to think of home  
Wishing she was there

She's a runaway  
Out there on her own  
She's a runaway  
Livin' in the danger zone  
She's a runaway  
Out there on her own

She's a young stray  
Livin' in the danger zone

She's a runaway  
Out there on her own  
She's a runaway  
Livin' in the danger zone  
She's a runaway  
Out there on her own  
She's a young stray
