

Bachelor

Rod Wave

Things have been so crazy and hectic
I should've gotten back by now
But you know I been trying to make it
It's probably better in the end (Turn me up, Five)
Why did you have to go?
Is there any way I can help?
If the spotlight makes you nervous
If you looking for your purpose

Relationships end, that leave y'all jaded
Love take a lot of forgiveness and patience
Take a shot for me tonight when you get faded
It's okay, we tried it, we couldn't make it
No need for toxicness or no hatred
I love you forever, be careful, my baby
Gotta change cities, it's so heartbreaking
Moved to Atlanta, relocated
Condo downtown overlooking the city
House in the sticks when the kids come and visit
Three-story townhouse currently building
Trap on the Westend booming off the hinges
Girls flying out, girls flying in
Girl from the city, Georgia accent
A girl who was friend of a friend of a friend
Backdoored her own homegirl to get in

Put your hands in the air right now
DJ, turn me up, don't ever turn me down (Turn me down)
Gave up my happy ever after
Now I live my life like a bachelor, life of a bachelor (And I k
now it's bittersweet)
Life like a bachelor (The grass will always be greener, bachelo
r)
In the club with a bachelor (On the other side though)
Life like a bachelor, oh
Life of a bachelor
