Dark Clouds

Rod Wave

I'm in New Jersey right now
It's like 4 in the mornin'
It's me and T in this bitch
My nigga Dre in this bitch

Flushed all this percocets, why
They wasn't workin' yet
Quarter pound on my bus
We finna murda that
I was okay, but I been feeling sorrow
Tonight Imma pray it's better by tomorrow

Say mama, hey mama
I been feeling home sick
It's demons inside my heart
And I can feel 'em growing
I brought people around me
Without even knowing
They all had secrets agendas
That they wasn't showing

Bitches will stab you in yo' back
But smile in yo' face
Niggas will act how they act
But they want yo' place
Say that's it's love out they mouth
But that shit be fake
So I been lookin' for peace
And beggin' for space oh

Lord I'm just a nigga tryna win
Lord I'm just a nigga so I sin
We spin his block
We spin his block
then spin again
He gotta pay for what he did, yeah

I been feelin' pain for so long
I done became numb
I don't make it no better
I give my heart to whoever
They take it and they run

You had me but you lost me
I'm not mad, I'm exhausted
Please, please, if you come around
Give me something to make me smile
And it's so many dark days
It's so many dark days and dark clouds
It's been so many dark days
Been so many dark days and dark clouds

Like a big ass black cloud
Been following a nigga around
I been tryna shake that bitch
Then nigga come around wit that energy
Make it even fuckin' worse, I'on even know

It's been so many dark days
Been so many dark days and dark clouds
It's been so many dark days
Been so many dark days and dark clouds

I been feelin' pain for so long
I done became numb
I don't make it no better
I give my heart to whoever
They take it and they run

You had me but you lost me
I'm not mad, I'm exhausted
Please, please, if you come around
Give me something to make me smile…
