

Even Love

Rod Wave

(Pipe that shit up, TnT)
(Shaad got K'Rounds)
Look

What happened to the dreams and the love that we shared? Feel it fading
You can take away my tattoos, the scars on my heart, we'll replace 'em
And I don't even like to party, but I'm going out tonight
'Cause I know that's the type, but shit that you don't like
In the section sending text messages, but avoided it
In the club tryna wrap my head around and what's the point of this?
It's so hard to right my wrongs
Will you miss me when I'm gone?
Think I'm better off alone
Are you better on your own? (Yeah)
And we were such a fairy tale (Yeah)
You were there, I was there
You can do better by yourself (Yourself)
If you don't care, I don't care
And there you go again playing (Yeah, yeah)
Why are you always playing? (Oh)
Was it real or was you faking?
What about the time that we wasted? (Wasted)

Was it even love? (Uh, uh, uh, uh)
Is it even love? (Uh-uh, uh)
Was it even love? (Uh-uh, uh)
Go get even, love (Uh-uh, uh)

'Cause I know I waited
And I know I waited
Uh
Grrah
