

# Invisible Scar

Rod Wave

(Pipe that shit up, TnT)  
(Tahj Money)  
Hmm  
(Shaad got K'Round)

How's it feel closing million-dollar deals off a cell phone?  
Oh, youngin' in the party, running wild with his head gone  
If I broke ya heart then I'm sorry about it  
Real rockstar, living large, invisible scars  
She can say, "Come save me" (Yeah)  
"Come save me" (Yeah)  
She say, "Come save me"  
But I can't be the one (I won't be the one)  
Can't be the one

Early mornings and late nights, it be such a sight  
I can't even lie, right now's the time of my life  
Tour bus, sliding, even flyin' private  
High mileage, all around the world, that's high mileage  
Keep quiet, keep ya fly as hell, brand new YSL  
This that new Chanel, can't you tell? Want you to myself  
But, I'ma be gone all next week  
Sippin' codeine ease the pain  
I can't even find my phone  
Can't even move out of my head  
I don't wanna fight, that's that extra shit  
My medicine made me miss your calls and your messages  
You're Heaven-sent, just right for me  
Fuck these hoes and what they think  
I'ma give ya everything you want  
Just gotta let me chase my dreams
