

Lost In Love

Rod Wave

(Pipe that shit up, TnT)
(Djaxx got that star shit on him)

Left for dead, left to die, I still survived
God, please tell me why
Do I have a greater purpose?
Will I become a better person?
Tell me why your phone ain't never workin' when I need you the most
My phone keep on chirpin', please tell me this shit a joke
Full of pain, can't cope, brain broke, doin' dope
Novocain, overdose, youngin hangin' out the window with his scope
Screamin', "Us against whoever"
Fuck fame, fuck love, shit made it no better
Heart cold, below zero, baby, bring your own sweater
I was born inside a storm, I'm so used to rain puddles
Mama, hand me my umbrella
I was gettin' high last night when I thought about you, uh
I was gettin' fly last night when I thought about you, uh

I know you're watchin' the phone ring
Tell me, what did I do?
Annie, tell me that you're okay, I was just checkin' on you
Lost in love again
Abusin' drugs again, yeah
What up, what up, what up
I know you're watchin' the phone ring
Tell me, what did I do?
Annie, tell me that you're okay, I was just checkin' on you
Lost in love again
Abusin' drugs again
