Love Overdose

Rod Wave

Yeah, yeah, yeah
High off love, high off love
Who needs drugs when you're high off love?
Love, love
Look, uh, uh

Coffee cup codeine, got my mind and heart racing
Late nights, I remember how things started changing
Told you I'll be home soon, guess you ran out of patience
What happened to our love? Seems you forgot about me, baby
Trapped in a world of sin, ridin' 'round on ten
In a brand new Benz, can't nobody get in
I don't want no more friends, can't nobody come 'round
I don't want no more love, they all let me down
Percocets remind me of your love, well, what it used to be
Usually I pop two or three, then think 'bout you and me
Percocets remind me of what we used to be
Usually I pop two or three, then think 'bout you and me

Yeah, uh
Slow down, don't rush
Who needs drugs when you're high off love?
It's okay, don't take it all in at one moment
All at one moment could lead to overdosing
Yeah, you're high off love, high off love, who needs drugs?
High off love, high off love, high off love
Lost on love, lost on love, who needs drugs?
Love
