

# Never Find Us

Rod Wave

Pipe that shit up TnT  
Dmac on the fuckin' track  
Never find us  
Yeah, yeah, yeah

No plans, no phones, just me and you alone  
Uh, spent my life on the road, seen all of the states  
I can show you a place they'll never find us, oh  
Yeah, they'll never find us

Yeah, yeah, yeah

And let me take you to a place, where we never can be found  
On the edge of Carolina where the sun come out the ground  
Don't nobody judge nobody, only broken hearts allowed  
Ride outside of Savannah, 'bout an hour from the town  
And while away I was alone, hoping you can hold it down  
I seen some things when I was gone, I want you to come see 'em  
now

Where you at? I'm gon' come get you, it ain't right when you ain't 'round

I ease my pain with my pen, write your name in the clouds  
Pack yourself your toothbrush still, pack yourself your favourite blouse  
Take yourself a withdrawal seal, and, take all of your savings  
out  
'Cause, if we don't leave this town, we might not make it out  
I was born to drown, I was born to drown (Yeah)

No plans, no phones, just me and you alone  
Uh, spent my life on the road, seen all of the states  
I can show you a place, they'll never find us, oh  
Yeah, they'll never find us
