

Never Get Over Me

Rod Wave

Yeah, yeah

Mmm

You can run as far as you can, I'll still be there
Have you ever heard, that real is real?
You can look anywhere (Everywhere)
I done looked everywhere (Everywhere)
I kept it so real with cause I can't fake it baby
Wear my heart on my sleeve, we have deep conversations
Come and vibe with me in whatever hotel I'm staying
Crying telling me all of your dreams and your aspirations
It's crazy, how you got did in your past
I don't do no pillow talking
But I'm 'nothin like yo' last
And we fly privatley, that's a whole 'nother class
'Yo pride what made you leave
When you know this where it's at

Your attitude stuck up
Niggas got yo head fucked up
Tell me if I'm lying, do I ever cross your mind?
I been this way before I made it baby, but, but
This 20 million later baby
And by the time you hear this song
I'm gone be longer than gone
Forever in your heart, always in your mind
Stuck in your thoughts, a mountain you can't cross

Never get over me I know, that you'll
Never get over me, I know
Never get over me I know, that you'll never, you'll never
Never get over me I know, that you'll
Never get over me, I know
Never get over me I know
Never, you'll never
Never get over me (Yeah, yeah)
Never get over me I know, that you'll
Never get over me, I know
Never get over me I know, and you'll never, and you'll never
Never get over me
That nigga slid that bih
