

Never Mind

Rod Wave

Uh, never will I forget this
Yeah, this was the one
Didn't wanna add you to that list, no
Of lost, broken love
And now the weather's startin' to change
Leaves starting to fall
Summer's here, I'm still all alone

Uh, but you don't have to bring me back your heart
Replacing isn't easy as you thought
I've always been your flashlight in the dark
Which means, you only call me when you're lost
I thought we'd always be together, woah (Look)
I used to love you, now I hate you forever, woah
I used to love you, now I hate you forever
I hate you forever, hate you forever (Uh, woah)
Yeah (Woah)

Look, look, look (Uh)
And I know hate is such a strong word, but it's a real feeling,
uh
Cut me deep with your words, girl, I still feel it
And I'm still sipping dirty Sprite to get me through the night
I'm still tripping, tryna figure out what I'ma do tonight
All my time is off, feel like my mind is lost
I left the door wide open and now my heart is broken
But I done sung this song a thousand times
Sung that song a thousand times, yeah

Uh, but you don't have to bring me back your heart
Replacing isn't easy as you thought
I've always been your flashlight in the dark
Which means, you only call me when you're lost
I thought we'd always be together, woah (Look)
I used to love you, now I hate you forever, woah
I used to love you, now I hate you forever
I hate you forever, hate you forever (Uh, woah)
Yeah (Woah)
