

No Love

Fuck you, straight up
No, no, no

After months of feeling dead
Finally feel I'll live again
Hearing voices in my head
Telling me I'll heal again
I had gave you all my love
Gave you all I had to give
I invested all my trust
And you gave me your ass to kiss, yeah
Love don't love nobody, no (I'm sayin', what up, though?)
Love don't love nobody, love, love, love
Love don't love nobody, yeah, uh, uh, uh
It don't love nobody, it don't love nobody

Fresh out of that bottom, cutthroat conniver
Don't want my mama crying, plus he wildin' so I shot him
See the problem is I'd never do you how you did me
Every move I made, I tried to consider your feelings
Feeling back-stabbed and heartbroken
I thought that I was broken, I still left my heart open
You told me that your love would last forever, I'd pivot on it
Told you all my problems and my past, you shitted on it
Now you actin' bougie and big bad 'cause that nigga on you
You don't know I ran up me a bag, I'm finna get rid of homie
Got me in my feelings, I'm big mad, plus I'm feeling lonely
I don't wanna hear shit about shit, all you bitches phony
I know I'll never love again, but you can't say the same thing
I know I'll never trust again, and I can say that with ease
You get to live a fairytale dream, what about me?
I left my heart inside my pocket and threw away the key

After months of feeling dead
Finally feel I'll live again
Hearing voices in my head
Telling me I'll heal again
I had gave you all my love
Gave you all I had to give
I invested all my trust
And you gave me your ass to kiss, yeah
Love don't love nobody, no (I'm sayin', what up, though?)
Love don't love nobody, love, love, love
Love don't love nobody, yeah, uh, uh, uh
It don't love nobody, it don't love nobody
