

# Scared Love

Rod Wave

I wish you nothing but the best  
I hope you find nothing but happiness (Pipe that shit up, TnT)  
I know where you are and I know who you're with  
For what it's worth, baby, I wish you nothing but happiness (Trill got that  
juice, nigga)  
Happiness  
Look

How deep is your love? Your love  
Is it real? It might be  
What made you take a chance on a nigga like me?  
What made you stick around? I wanna know it  
When I was younger, I was controlling  
That pussy mine, girl, I own it  
I jumped up off the porch and I got nothin' but scars  
Wish I would've stayed at home and found true love in my heart  
Runnin' wild as a child, screamin', "Young nigga in charge"  
They was playin' at the park, we was surfin' in them cars  
Daddy left, I took it hard  
Deyjah died, I took it hard  
The game embraced me in they arms  
Seen my dream and played it smart  
Never knew I'd get this far, but that's another story  
I get so lost inside your eyes  
You broke my heart so many times  
So many times, I crossed the line  
Said you love me, I ain't believe it  
Young nigga fighting demons  
Full of drugs, steady leanin'  
Where you at right now? I need it  
Where you at right now? I'm fiendin'  
You know you can call on me  
I'll be there in a heartbeat, ah (Oh)  
And I don't want to be toxic, I want to be your peace  
And I don't want to control you, I want you to be free  
And I don't want to be fightin', don't wanna hear you scream  
Don't wanna grow apart, I want you to be here with me  
When you think of peace of mind  
I want you to think of me sometimes  
Could I close what I opened?  
I was hopin' I could fix all the shit that I've broken

'Cause being lonely really hurts  
But being lost in love is scary  
I'll love you if you let me  
Don't love me 'til you're ready  
Oh (So scared)  
I admit I was scared, so scared, love  
I was so scared, love (So scared, love)  
'Cause being lonely really hurts  
But being lost in love is scary  
I'll love you if you let me  
Don't love me 'til you're ready, no  
Yeah and I admit, I was scared  
So scared, love, I was so scared, love, yeah  
Being lonely really hurts  
But being lost in love is scary

I'll love you if you let me  
Don't love me 'til you're ready, oh

I admit, I was scared, so scared, love (I was so scared, love, I'm so scared  
, love)  
I admit, I was scared, so scared, love
