

Spaceship

Rod Wave

(Pipe that shit up, TnT)
(Dmac on the fuckin' track)
Hmm-mm-mm
Look
Uh

Thinking 'bout my life and how hard I fell
Made me feel like I failed
I been thinking 'bout my brother, you on my mind as well
Only time'll tell
If a nigga telling over time, they telling over time
Even told the people I got change on his mind
Still ain't make me change my mind, I hope you die, you pussy bitch
Get caught in that fire and fry, you pussy bitch
They don't wanna see us win, they wanna see us fall (Yeah)
Even though I cried, pride won't let me call, uh
I love that girl to death, but this shit done went beyond that (Oh)
Thinking 'bout our past, I almost broke the no contact
And relapsed a second time, a third time again
Thinking, "Where you are? Who you've been with?" Mm
Wishing we can go back to the times when we was kids
But I know that this shit'll never be the same again and
Feds listening (Hello) to my cell phone
Talking on a jail phone telling brother keep his head on
I'm like, "Twin brother, hard times don't last forever," uh
"This shit gon' get better," uh, "We in this shit together," uh

Tryna get so high that I fade away
Anything to take my pain away
Bentleys, Bimmers, and Cadillacs
Still can't shake my past, uh
I'ma buy me a spaceship
Tryna buy me a spaceship
See how far it can take me, yeah
See how far it can take me (Race me), yeah
Tryna buy me a spaceship, uh (Uh, uh)
See how it can take me (Race me)
How far it can take me (Race me), yeah

Man, what the fuck is that? Is that Nuni?
Uh
See how far it can take me (Oh shit, that's Nuni)
See how far it can take me
Welcome back, Mr. Green
See how far it can take me
See how far it can take me
