

# The Mess They Made

Rod Wave

(Pipe that shit up, TnT)  
Oh, oh  
Duh-duh-duh, duh-duh-duh-duh-duh  
(FOREVEROLLING)  
Drifting away, moving apart  
Never stopping  
I hope that this stops (Nah)  
Now I'm feeling that this is running away (Yeah-yeah)  
Look, uh

I keep my chest poked out, my head held high, dyin' on the inside  
And all through the day, I'll be okay  
Check on me through the night (Okay)  
You know life's like a party, 'til everyone goes home, everyone fades  
And now you're stuck cleaning up  
The mess they made (Uh, uh-uh, uh, mm)  
Cleaning up the mess they made, mm, uh  
And now you're stuck cleaning up the mess they made (Duh-duh-duh, duh-duh-duh-duh-duh)  
Mess they made (Look, look, cleaning up the mess)

I don't wanna hear about the shit you say, shut your mouth  
You know you can't run no game, bitch, I came out that South  
Like my mama used to tell me, way-way back in the day  
"Nigga, you ain't got no motherfuckin' maids in this house"  
Ho, you ain't gon' play no games in this house, I kick her out  
I'm the one who lit your flame, bitch, go tell me what this 'bout  
I'm the biggest in the world, how I feel  
No matter what I feel, won't tell no girl how I feel, that's just real  
I'm the one that you had run to when he broke your heart  
Laid up in my bed, conversatin' in the dark  
Then 'round him, run home when you gettin', find out you're trouble  
Go home and block my number  
Play his heart, then play my heart (Dirt-ass), bitch, fuck you

I keep my chest poked out, my head held high, dyin' on the inside  
And all through the day, I'll be okay (Okay)  
Check on me through the night  
You know life's like a party, 'til everyone goes home, everyone fades  
And now you're stuck cleaning up  
The mess they made (Uh)  
Cleaning up the mess they made (Yeah-yeah), uh  
And now you're stuck cleaning up the mess they made  
The mess they made (Like, I told you, "Great Gatsby")

Cleaning up the mess they made  
In that dark place, so you know I'm in the dark, homie  
Cold-ass, boy, what it sound like?  
Grrah
