Rod Wave

Fuck a bitch, suck a dick that's how I feel  
I don't hang with or fuck with jits, cause they ain't real  
I hang with flame slangin' gang bangin' niggas in the field  
No flaggin', toe taggin', niggas doing drills  
They talking but ain't doing shit, I'm so true to this  
Don't give a fuck about your future bitch, I'll let this rugger spit  
Making diss songs to get on, trynna play a nigga,  
I don't get no tracks to sing on niggas, I just swing on niggas

Road runnin' till like 4 something I'm just livin' like a star  
Dope money blew like four onions in this rental car  
All that hatin' shit and ganging shit, ain't gone get you far  
All that actin' like you bout it, that shit might get you shot

Niggas mad I'm winning, and they losing  
My lil brother he stupid, pop beans and act stupid  
Jump out with a uzi, big clip shoot a movie  
Niggas in they feeling, they bitches be Pickin' and Choosin'

I woke up this morning, with Tomorrow on my brain  
Today could be the day I fall a victim to the game  
If I lose my life tonight my momma probably go insane  
The fact, that a niggas took my life for a name  
Last night I had a dream, that an all black Impala  
Hit my hood with a choppa, kill me and 4 of my partners  
I died on my corner with my pistol in my pocket  
Bleedin' from my face, my old lady tryna stop it

Last week was last week, but last week was an close one  
The crackers pulled me over, and he slightly approached me  
He walked around a side me, with his hand on his holster  
I went to grab my I.D, and the cracker almost smoked me

Where I come from is the jungle  
Where I come from is hard not to go under  
Where I come from full of sorrow  
(I'm addicted to the mood)

So we slidin', and ridin' the car full of Semi's  
Cause it get violent this side of the city  
Word around town is them boys getting busy  
They jump out with Tec's, and Mac's, and Glizzy's  
I got a 30 my lil bro got 50  
That's 30 for 30, that's 60 for 20  
He want some smoke, then tell him come get it  
He wanna blow, then tell him we with it  
(Yea, yea, we with it)
